</table>

### Operations

#### Entering the provisioning details

You can enter the provisioning server address on the phones when the phone displays the Enter provisioning details screen.

Obtain the provisioning server address from the system administrator.

1. When you boot the phone for the first time, the Auto Provisioning screen displays Do you want to activate Auto Provisioning now?, press one of the following:
   - **Yes**: To connect to the Device Enrollment Services server to obtain the provisioning server address and ignore the provisioning server address from the DHCP.
   - **No**: To obtain the provisioning server address from the DHCP server.

   In case of a time out, and the DHCP does not provide the provisioning server address, the phone selects Yes.

   If the connection to Device Enrollment Services is successful, and the phone receives the provisioning server address, the phone continues to boot and not prompt you for the provisioning server address.

   If the connection to Device Enrollment Services is successful, and the phone does not receive the provisioning server address from Device Enrollment Services, the phone prompts you for a Numeric Enrollment code. Contact your administrator for a numeric enrollment code. When you enter the valid numeric enrollment code, the phone continues to boot and not prompt you for the provisioning server address.

   If you do not have a numeric enrollment code, press **Cancel**. The phone continues the boot process and connects to the provisioning server.

2. On Enter provisioning details screen, press one of the following:
   - **Config**: To enter the provisioning server address.
   - **Never**: To never prompt for the provisioning server address.

### Making a call by using speed dial

Ensure you have speed dial numbers assigned to your contacts.

Press and hold the dial pad key assigned to the number you want to call.

### Making an emergency call

Ensure that the Emerg soft key is assigned by your administrator.

Do one of the following:
- On the Phone screen, press the Emerg soft key, and again press Emerg when the phone prompts you for confirmation.
- Dial the emergency number by using the dial pad.

### Declining a call

You can decline an incoming call when you do not want to answer a call. The incoming call is declined depending on the Call decline policy set by your administrator. Contact your administrator to enable this feature for your extension and also to know about the Call decline policy.

Ensure that the administrator enabled the feature.

On the incoming call screen, press Decline soft key.
The call is declined. Depending on your Call decline policy, the caller receives one of the following alert:

- An audio message alert
- A busy tone alert

**Answering a call when on another call**

You can receive a call on a secondary call appearance only if the call appearance is free.

Press one of the following:
- The **Answer** soft key
- **OK** Button

The phone puts the first call on hold and moves to the second call.

**Adding a person to an active call**

You can add participants to an active call to set up a conference call.

Start a call.

1. During a call, on the Phone screen, press **More > Conference**.
   The phone puts the existing call on hold.
2. To make a call to a participant, do one of the following:
   - Dial the phone extension by using the dial pad.
   - Call the person from the **Contacts** list or the **Recents** list.
3. When the third participant answers the call, press the **Join** soft key.
4. To add another person, press **Add** and repeat Steps 2 and 3.

**Related links**

- [Making Conference Calls (video)](#)

**Viewing the Recents details**

On the Recents screen, depending upon the call type, you can view the following details of each call:

- **Incoming call icon**
- **Outgoing call icon**
- **Bridge call icon**
- **Missed call icon**
- **Name**
- **Extension number**
- **Time**
- **Date**
- **Duration**

**Contacts**

**Adding a contact from the Recents list**

Use this procedure to add a number to your Contacts list from your call history.

1. Press **Recents**.
2. Scroll to the required number and press **+Contact**.
3. In the **First name** and **Last name** fields, type the relevant information.
   The phone assigns the extension number to **Last name**. You can remove the extension number from this field and add other information.
4. Press **Save**.

**Combining contacts**

Use this procedure to merge the phone number of the current contact with the existing local contact.

Ensure the Contacts list is not empty.

1. Press **Contacts**.
2. (Optional) To navigate through **Main menu**, do the following:
   a. Scroll to **Applications** and press **Select**.
   b. Scroll to **Contacts** and press **Select**.
3. Scroll to the contact that you want to combine, and press **Details > More > Combine**.
   The select mode displays the Contacts list without the current content.
4. To combine the current contact, scroll to the existing contact, and press **Select**.
   The current contact will be deleted from the Contacts list and merged with the local contact.

**Creating a local Contacts group**

1. Press **Contacts**.
2. (Optional) To navigate through **Main menu**, do the following:
   a. Scroll to **Applications** and press **Select**.
   b. Scroll to **Contacts** and press **Select**.
3. Press **Groups**.
4. Press **NewGroup**.
5. In the **Enter group name** field, type your group name.
6. Press **Save**.

**Advanced features**

**Avaya Spaces Calendar integration**

Avaya Spaces is a cloud-based team collaboration and meeting application. You can use it for instant messaging, voice and video communication, track communications, and manage tasks. For more information about Avaya Spaces, see **Using Avaya Spaces** guide.

With the Avaya Spaces Calendar integration feature, you can press the Call soft key on the calendar appointment of your phone and join a meeting hosted on Avaya Spaces. The phone dials into the meeting phone number and enters the Space ID and Space password automatically without any further user input.

The Avaya Spaces Calendar integration feature is optimized to work when meeting organizers use the Avaya Spaces Outlook plugin. For more information about the Outlook plugin, see the Microsoft Outlook Add-on section of the Avaya Spaces user guide.

**Joining an Avaya Spaces meeting through a direct dial-in phone number**

You can use a direct dial-in phone number to connect to the Avaya Spaces audio-only meeting. If you choose to join the meeting through the direct number, enable the Prompt direct number feature. The phone displays the direct numbers from the meeting invitation. Choose the direct number of your country. If your country is not listed, you can select the direct phone number of the country that is most appropriate to your location. The phone dials in the number and enters the Space ID and optional password to join the meeting.

Ensure that your administrator enables the Avaya Spaces feature and the option to select a direct number.

Enable the Prompt direct number option.

1. Press **Main Menu**.
2. Scroll to **Applications** and press **Select**.
3. Scroll to **Calendar** and press **Select**.
The phone displays the appointments in the start-time order.
4. To scroll from one appointment to another, press one of the following:
   • The Up Arrow key.
   • The Down Arrow key.
5. Select an Avaya Spaces calendar event and press Call.
6. In the Country > Select direct number screen, press one of the following:
   • Select: To call the direct number available for the selected country.
     The phone dials in the number and enters the Space ID and optional password to join the meeting.
   • Country: To select the direct number of a different country. The Direct numbers > Select Country screen displays a list of countries for selection.
   • Details: To view the details of the selected direct number. The Direct number > Details screen displays the information.

Preventing duplicate audio streams on Avaya Spaces application
For a smooth audio experience, prevent duplicate audio streams. You can establish an audio session to Avaya Spaces using Avaya J100 Series IP Phones and use the Avaya Spaces application on your computer to view the presentation. To prevent duplicate audio session on your Avaya Spaces application, use this procedure.
1. Log on to Avaya Spaces application on your computer.
2. On application screen, click on the display name.
3. Select User Preferences option.
4. On the left panel, select Meeting defaults.
5. Toggle to enable Show preview when joining.
6. Join a meeting on spaces from your computer.
7. On the Preview screen, click Other join options > Join By Phone.
8. On the Join Presentation Mode, follow the screen instructions.
   You join the Avaya Spaces meeting as a view-only participant on your computer without using an audio and video session.
   The audio session is established on your phone.

Call forwarding to your cell phone using EC500
Use this procedure to forward calls from your Avaya deskphone to your personal phone.
   • Ensure that the administrator enabled the feature.
   • Ensure that the system administrator sets your personal phone number as your destination number.
   1. Press Main menu and scroll to Features.
   2. Press Select.
   3. Scroll to EC500 and press Select.

Long-term acoustic exposure protection
Avaya J100 Series IP Phones have the long-term acoustic exposure protection to prevent the users from getting acoustic shocks. This feature reduces the loud volume of the conversations on the phone call to permissible acoustic limits. The user can set the permissible acoustic limit to dynamic or predefined static values. If a dynamic setting is selected, the feature activates itself and gradually reduces the loud volume of the phone conversations to prevent from reaching the damaging decibel levels.

Long-term acoustic exposure protection feature satisfies OSHA, ETSI and employee health safety requirements.

Important:
   Only L100 Series Headsets with RJ9 connector support long-term acoustic exposure protection when the headset profile is set to Profile1.

Configuring Long term acoustic protection
Long-term acoustic protection feature reduces the loud volume of the conversations on the phone call to permissible acoustic limits, you can configure the long-term acoustic exposure protection for your headset.

Ensure you set the headset profile to Profile1, and use L100 Series Headsets.
1. Press Main Menu.
2. Scroll to Settings and press Select.
3. Scroll to Audio settings and press Select.
5. Choose one of the following and press Select:
   • Default: Sets the acoustic protection values to one of the following options that your administrator sets:
     - Dynamic
     - 8 hours
     - 4 hours
     - Off

Making a priority call
Use the Priority Calling feature to provide users with a special internal call alert. The called party hears a distinctive ringing when the calling party uses Priority Calling.

The call rings even at an extension with Do not disturb enabled.

Ensure that the administrator enabled the feature invocation target selection.
1. Press the Main menu.
2. Scroll to Features and press Select.
3. Scroll down to Priority Call, press OK, or press the corresponding line button.
   You can see the Select a destination dialogue box.
4. Do one of the following to enter the number you want to set as a priority:
   • Press the Dial soft key to use the dialpad and manually enter the number.
   • Press Contacts, Recents or Phone button to select the number from the list.
   • Press the Browser soft key to select the destination number from the browser application.
   • Press the Autodial, Busy indicator or Team line key to select the number as destination target.
   The Priority feature is activated.
5. Press Enter or OK to activate the feature in case of manual dialling.
6. (Optional) To cancel the priority call, press the Cancel soft key.

Listening to your voicemail
Use this procedure to listen to your voicemail on your phone.
   • Ensure that the system administrator configures the voicemail for your extension.
Making a precedence call by using the Main menu

1. Press Main Menu.
2. Scroll to Applications and press Select.
3. Select Call Priority.
4. On the Precedence Selection screen, select the precedence level.
5. Dial the extension from one of the following:
   • Contacts
   • Recents
   • The dial pad

Joining a call on a bridged line

On the phone, do one of the following:
• Press the line button with the active call.
• Select an active bridge line number and press Bridge.

**Note:**
Do not use Headset, Handset or Speaker softkeys to join the call on a bridged line. Pressing Headset, Handset or Speaker opens the Dial screen. To cancel dialing and to press the required line button for joining a call, press the Headset, Handset or Speaker softkey again.

Using a Guest Login

Use this procedure to log in as a guest on another phone to access your applications and call history for a limited time.

**Note:**
You need to re-login if the phone reboots.

Ensure that the administrator enabled the feature.

1. Press Main Menu.
2. Scroll to Applications and press Select.
3. Scroll to Guest login and press Select.
4. Enter your extension and password.
5. Press one of the following to set the duration in hours:
   • Right arrow key: To increase the value.
   • Left arrow key: To decrease the value.

6. Press Enter.

**Call Transfer**

With the Call Transfer feature, you can transfer your call to another destination number.

The types of Call Transfer are:

• Consultative transfer: Transferring a call by connecting a call with the transfer recipient.
• Blind transfer: Transferring a call without connecting a call with the transfer recipient.

**Related links**

Handling multiple lines (video)

**Making a consultative transfer**

Transfer a call by connecting a call with the transfer recipient.

1. While on an active call, press Transfer soft key.
   • The phone displays the Select a destination dialogue box.
   • The first call is placed on hold.
2. Do one of the following and then press the Call soft key:
   • Dial the number to transfer the call.
   • Search for the number in Contacts or Recents.
   • Press the Team line key to transfer the call to the configured team button.
   • You must configure the team button to use as your target selection.
3. To initiate a consultative transfer, press Talk.
   • The call transfer recipient's phone starts ringing.
4. Do one of the following:
   • Press Complete after the recipient answers the call.
   • Press Complete after the recipient's number starts ringing.

**Making a blind transfer**

Use this procedure to transfer an active call without connecting a call with the transfer recipient.

1. While on an active call, press Transfer.
   • The phone displays the Enter Transfer Destination screen.
2. Do one of the following and then press the Call soft key:
   • Dial the number to which you want to transfer the call.
   • Search for the number in the Contacts or Recents list.
3. To initiate a blind transfer, press Now.
   • The call transfer is complete.

**Customization**

**Enabling and disabling Bluetooth**

You can use Bluetooth enabled devices with your phone.

**Note:**
Avaya J169 IP Phone does not support the Bluetooth feature.

Ensure the wireless module is installed in your phone.

1. Press Main Menu.
2. Scroll to Settings and press Select.
3. Scroll down to Bluetooth and press Select.
4. Scroll to Bluetooth headset and press one of the following:
   • Toggle: To enable or disable Bluetooth.
   • Right Arrow key: To enable Bluetooth.
   • Left Arrow key: To disable Bluetooth.

**Note:**
For some Bluetooth headsets, volume can be adjusted during the first call after rebooting the phone. Toggle the slider of the pop-up panel to the right to increase the volume, and to the left to decrease it.

**Pairing a Bluetooth enabled headset with your phone**

You can pair a maximum of ten Bluetooth enabled headsets with the phone, but you can use only one headset at a time. The phone displays the list of available devices and paired devices.

• Ensure the wireless module is installed in your phone.
CUSTOMIZING PHONE KEYS

Use this procedure to add, relabel, move, or delete contacts, features, or applications from the Phone screen. Ensure that the administrator has set Full or Limited customization mode. You cannot customize phone keys in the Blocked mode and can only customize labels and Contact and Application favorites in the Limited mode.

1. Press Main Menu.
2. Scroll to Settings and press Select.
3. Scroll down to Bluetooth and press Select.
4. Scroll to Devices and press Select.
   The phone scans and displays the list of Bluetooth enabled devices.
5. To pair a device, scroll to the headset and press Pair.
6. To disconnect a paired headset, under Paired devices, press Disconnect.
7. To unpair a paired headset, under Paired devices, press Forget.
