Using Avaya J169/J179 IP Phone H.323
© 2019-2022, Avaya Inc. All Rights Reserved.

Note
Using a cell, mobile, or GSM phone, or a two-way radio in close proximity to an Avaya IP telephone might cause interference.

Documentation disclaimer
“Documentation” means information published in varying mediums which may include product information, operating instructions and performance specifications that are generally made available to users of products. Documentation does not include marketing materials.

Avaya shall not be responsible for any modifications, additions, or deletions to the original published version of Documentation unless such modifications, additions, or deletions were performed by or on the express behalf of Avaya. End User agrees to indemnify and hold harmless Avaya, Avaya's agents, servants and employees against all claims, lawsuits, demands and judgments arising out of, or in connection with, subsequent modifications, additions or deletions to this documentation, to the extent made by End User.

Link disclaimer
Avaya is not responsible for the contents or reliability of any linked websites referenced within this site or Documentation provided by Avaya or such successor site as designated by Avaya. Avaya is not responsible for the accuracy of any information, statement or content provided on these sites and does not necessarily endorse the products, services, or information described on these sites. Avaya does not guarantee that these links will work all the time and has no control over the availability of the linked pages.

Warranty
Avaya provides a limited warranty on Avaya hardware and software. Refer to your sales agreement to establish the terms of the limited warranty. In addition, Avaya’s standard warranty language, as well as information regarding support for this product while under warranty is available to you through the Avaya Support website: https://support.avaya.com/helpcenter/getGenericDetails?detailId=C20091120112456651010 under the link “Warranty & Product Lifecycle” or such successor site as designated by Avaya. Please note that if You acquired the product(s) from an authorized Avaya Channel Partner outside of the United States and Canada, the warranty is provided to You by said Avaya Channel Partner and not by Avaya.

“Hosted Service” means an Avaya hosted service subscription that You acquire from either Avaya or an authorized Avaya Channel Partner (as applicable) and which is described further in Hosted SAS or other service description documentation regarding the applicable hosted service. If You purchase a Hosted Service subscription, the foregoing limited warranty may not apply but You may be entitled to support services in connection with the Hosted Service as described further in your service description documents for the applicable Hosted Service. Contact Avaya or Avaya Channel Partner (as applicable) for more information.

Hosted Service
THE FOLLOWING APPLIES ONLY IF YOU PURCHASE AN AVAYA HOSTED SERVICE SUBSCRIPTION FROM AVAYA OR AN AVAYA CHANNEL PARTNER (AS APPLICABLE), THE TERMS OF USE FOR HOSTED SERVICES ARE AVAILABLE ON THE AVAYA WEBSITE: HTTPS://SUPPORT.AVAYA.COM/LICENSEINFO UNDER THE LINK “AVAYA TERMS OF USE FOR HOSTED SERVICES” OR SUCH SUCCESSOR SITE AS DESIGNATED BY AVAYA, AND ARE APPLICABLE TO ANYONE WHO ACCESSES OR USES THE HOSTED SERVICE. BY ACCESSING OR USING THE HOSTED SERVICE, OR AUTHORIZING OTHERS TO DO SO, YOU, ON BEHALF OF YOURSELF AND THE ENTITY FOR WHOM YOU ARE ACTING, AGREE TO THE TERMS OF USE. IF YOU ARE ACCEPTING THE TERMS OF USE ON BEHALF OF A COMPANY OR OTHER LEGAL ENTITY, YOU REPRESENT THAT YOU HAVE THE AUTHORITY TO BIND SUCH ENTITY TO THESE TERMS OF USE. IF YOU DO NOT HAVE SUCH AUTHORITY, OR IF YOU DO NOT WISH TO ACCEPT THESE TERMS OF USE, YOU MUST NOT ACCESS OR USE THE HOSTED SERVICE OR AUTHORIZE ANYONE TO ACCESS OR USE THE HOSTED SERVICE.

Licenses
THE SOFTWARE LICENSE TERMS AVAILABLE ON THE AVAYA WEBSITE: HTTPS://SUPPORT.AVAYA.COM/LICENSEINFO UNDER THE LINK “AVAYA SOFTWARE LICENSE TERMS (Avaya Products)” OR SUCH SUCCESSOR SITE AS DESIGNATED BY AVAYA, ARE APPLICABLE TO ANYONE WHO DOWNLOADS, USES AND/OR INSTALLS AVAYA SOFTWARE, PURCHASED FROM AVAYA INC., ANY AVAYA AFFILIATE, OR AN AVAYA CHANNEL PARTNER (AS APPLICABLE) UNDER A COMMERCIAL AGREEMENT WITH AVAYA OR AN AVAYA CHANNEL PARTNER. UNLESS OTHERWISE AGREED TO BY AVAYA IN WRITING, AVAYA DOES NOT EXTEND THIS LICENSE IF THE SOFTWARE WAS OBTAINED FROM ANYONE OTHER THAN AVAYA, AN AVAYA AFFILIATE OR AN AVAYA CHANNEL PARTNER, AVAYA RESERVES THE RIGHT TO TAKE LEGAL ACTION AGAINST YOU AND ANYONE ELSE USING OR SELLING THE SOFTWARE WITHOUT A LICENSE. BY INSTALLING, DOWNLOADING OR USING THE SOFTWARE, OR AUTHORIZING OTHERS TO DO SO, YOU, ON BEHALF OF YOURSELF AND THE ENTITY FOR WHOM YOU ARE INSTALLING, DOWNLOADING OR USING THE SOFTWARE (HEREINAFTER REFERRED TO INTERCHANGEABLY AS “YOU” AND “END USER”), AGREE TO THESE TERMS AND CONDITIONS AND CREATE A BINDING CONTRACT BETWEEN YOU AND AVAYA INC. OR THE APPLICABLE AVAYA AFFILIATE (“AVAYA”).

Avaya grants You a license within the scope of the license types described below, with the exception of Heritage Nortel Software, for which the scope of the license is detailed below. Where the order documentation does not explicitly identify a license type, the applicable license will be a Designated System License as set forth below in the Designated System(s) License (DS) section as applicable. The applicable number of licenses and units of capacity for which the license is granted will be one (1), unless a different number of licenses or units of capacity is specified in the documentation or other materials available to You. “Software” means computer programs in object code, provided by Avaya or an Avaya Channel Partner, whether as stand-alone products, pre-installed on hardware products, and any upgrades, updates, patches, bug fixes, or modified versions thereto. “Designated Processor” means a single stand-alone computing device. “Server” means a set of Designated Processors that hosts (physically or virtually) a software application to be accessed by multiple users. “Instance” means a single copy of the Software executing at a particular time: (i) on one physical machine; or (ii) on one deployed software virtual machine (“VM”) or similar deployment.

License types
Designated System(s) License (DS). End User may install and use each copy or an Instance of the Software only: 1) on a number of Designated Processors up to the number indicated in the order; or 2) up to the number of Instances as detailed below. Where the order documentation does not explicitly identify a license type, the applicable license will be a Designated System License as set forth below in the Designated System(s) License (DS) section as applicable. The applicable number of licenses and units of capacity for which the license is granted will be one (1), unless a different number of licenses or units of capacity is specified in the documentation or other materials available to You. “Software” means computer programs in object code, provided by Avaya or an Avaya Channel Partner, whether as stand-alone products, pre-installed on hardware products, and any upgrades, updates, patches, bug fixes, or modified versions thereto. “Designated Processor” means a single stand-alone computing device. “Server” means a set of Designated Processors that hosts (physically or virtually) a software application to be accessed by multiple users. “Instance” means a single copy of the Software executing at a particular time: (i) on one physical machine; or (ii) on one deployed software virtual machine (“VM”) or similar deployment.

Shrinkwrap License (SR). End User may install and use the Software in accordance with the terms and conditions of the applicable license agreements, such as “shrinkwrap” or “clickthrough” license accompanying the Software ("Shrinkwrap License") as indicated in the order, Documentation, or as authorized by Avaya in writing.

Heritage Nortel Software
“Heritage Nortel Software” means the software that was acquired by Avaya as part of its purchase of the Nortel Enterprise Solutions Business in December 2009. The Heritage Nortel Software is the software contained within the list of Heritage Nortel Products located at https://support.avaya.com/LicenseInfo under the link “Heritage Nortel Products” or such successor site as designated by Avaya. For Heritage Nortel Software, Avaya grants Customer a license to use Heritage Nortel Software provided hereunder solely to the extent of the authorized activation or authorized usage level, solely for the purpose specified in the Documentation, and solely as embedded in, for execution on, or for communication with Avaya equipment. Charges for Heritage Nortel Software may be based on extent of activation or use authorized as specified in an order or invoice.
Copyright

Except where expressly stated otherwise, no use should be made of materials on this site, the Documentation, Software, Hosted Service, or hardware provided by Avaya. All content on this site, the documentation, Hosted Service, and the product provided by Avaya including the selection, arrangement and design of the content is owned either by Avaya or its licensors and is protected by copyright and other intellectual property laws including the sui generis rights relating to the protection of databases. You may not modify, copy, reproduce, republish, upload, post, transmit or distribute in any way any content, in whole or in part, including any code and software unless expressly authorized by Avaya. Unauthorized reproduction, transmission, dissemination, storage, and or use without the express written consent of Avaya can be a criminal, as well as a civil offense under the applicable law.

Virtualization

The following applies if the product is deployed on a virtual machine. Each product has its own ordering code and license types. Unless otherwise stated, each Instance of a product must be separately licensed and ordered. For example, if the end user customer or Avaya Channel Partner would like to install two Instances of the same type of products, then two products of that type must be ordered.

Third Party Components

“Third Party Components” mean certain software programs or portions thereof included in the Software or Hosted Service may contain software (including open source software) distributed under third party agreements (“Third Party Components”), which contain terms regarding the rights to use certain portions of the Software (“Third Party Terms”). As required, information regarding distributed Linux OS source code (for those products that have distributed Linux OS source code) and identifying the copyright holders of the Third Party Components and the Third Party Terms that apply is available in the products, Documentation or on Avaya’s website at: https://support.avaya.com/ Copyright or such successor site as designated by Avaya. The open source software license terms provided as Third Party Terms are consistent with the license rights granted in these Software License Terms, and may contain additional rights benefiting You, such as modification and distribution of the open source software. The Third Party Terms shall take precedence over these Software License Terms, solely with respect to the applicable Third Party Components to the extent that these Software License Terms impose greater restrictions on You than the applicable Third Party Terms.

The following applies only if the H.264 (AVC) codec is distributed with the product. THIS PRODUCT IS LICENSED UNDER THE AVC PATENT PORTFOLIO LICENSE FOR THE PERSONAL USE OF A CONSUMER OR OTHER USES IN WHICH IT DOES NOT RECEIVE REMUNERATION TO: (I) ENCODE VIDEO IN COMPLIANCE WITH THE AVC STANDARD (“AVC VIDEO”) AND/OR (II) DECODE AVC VIDEO THAT WAS ENCODED BY A CONSUMER ENGAGED IN A PERSONAL ACTIVITY AND/OR WAS OBTAINED FROM A VIDEO PROVIDER LICENSED TO PROVIDE AVC VIDEO. NO LICENSE IS GRANTED OR SHALL BE IMPLIED FOR ANY OTHER USE. ADDITIONAL INFORMATION FOR H.264 (AVC) AND H.265 (HEVC) CODECS MAY BE OBTAINED FROM MPEG LA, L.L.C. SEE HTTP://WWW.MPEGLA.COM.

Compliance with Laws

You acknowledge and agree that it is Your responsibility for complying with any applicable laws and regulations, including, but not limited to laws and regulations related to call recording, data privacy, intellectual property, trade secret, fraud, and music performance rights, in the country or territory where the Avaya product is used.

Preventing Toll Fraud

“Toll Fraud” is the unauthorized use of your telecommunications system by an unauthorized party (for example, a person who is not a corporate employee, agent, subcontractor, or is not working on your company’s behalf). Be aware that there can be a risk of Toll Fraud associated with your system and that, if Toll Fraud occurs, it can result in substantial additional charges for your telecommunications services.

Avaya Toll Fraud intervention

If you suspect that you are being victimized by Toll Fraud and you need technical assistance or support, call Technical Service Center Toll Fraud Intervention Hotline at +1-800-643-2353 for the United States and Canada. For additional support telephone numbers, see the Avaya Support website: https://support.avaya.com or such successor site as designated by Avaya.

Security Vulnerabilities

Information about Avaya’s security support policies can be found in the Security Policies and Support section of https://support.avaya.com/security.

Suspected Avaya product security vulnerabilities are handled per the Avaya Product Security Support Flow (https://support.avaya.com/css/P8/documents/100161515).

Downloading Documentation

For the most current versions of Documentation, see the Avaya Support website: https://support.avaya.com, or such successor site as designated by Avaya.

Contact Avaya Support

See the Avaya Support website: https://support.avaya.com for product or Hosted Service notices and articles, or to report a problem with your Avaya product or Hosted Service. For a list of support telephone numbers and contact addresses, go to the Avaya Support website: https://support.avaya.com (or such successor site as designated by Avaya), scroll to the bottom of the page, and select Contact Avaya Support.

Regulatory Statements

Australia Statements

Handset Magnets Statement:

Danger:

The handset receiver contains magnetic devices that can attract small metallic objects. Care should be taken to avoid personal injury.

Industry Canada (IC) Statements

RSS Standards Statement
This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions:

1. This device may not cause interference, and
2. This device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d’Industrie Canada applicables aux appareils radio exempts de licence. L’exploitation est autorisée aux deux conditions suivantes :

1. L’appareil ne doit pas produire de brouillage, et
2. L’utilisateur de l’appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d’en compromettre le fonctionnement.

Radio Transmitter Statement

Under Industry Canada regulations, this radio transmitter may only operate using an antenna of a type and maximum (or lesser) gain approved for the transmitter by Industry Canada. To reduce potential radio interference to other users, the antenna type and its gain should be so chosen that the equivalent isotropically radiated power (EIRP) is not more than that necessary for successful communication.

Conformément à la réglementation d’Industrie Canada, le présent émetteur radio peut fonctionner avec une antenne de un type et un gain maximal (ou inférieur) approuvé pour l’émetteur par Industrie Canada. Dans le but de réduire les risques de brouillage radioélectrique à l’intention des autres utilisateurs, il faut choisir le type d’antenne et son gain de sorte que la puissance isotrope rayonnée équivalente ne dépasse pas l’intensité nécessaire à l’établissement d’une communication satisfaisante.

This Class B digital apparatus complies with Canadian ICES-003.

Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.

Radiation Exposure Statement

This equipment complies with FCC & IC RSS102 radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter. Cet équipement est conforme aux limites d’exposition aux rayonnements ISÉDétaillables pour un environnement non contrôlé. Cet équipement doit être installé et utilisé avec un minimum de 20 cm de distance entre la source de rayonnement et votre corps.

This product meets the applicable Innovation, Science and Economic Development Canada technical specifications.

Japan Statements

Class B Statement

This is a Class B product based on the standard of the VCCI Council. If this is used near a radio or television receiver in a domestic environment, it may cause radio interference. Install and use the equipment according to the instruction manual.

この装置は、クラスB情報技術装置です。この装置は、家庭環境で使用することを目的としていますが、この装置がラジオやテレビジョン受信機に接近して使用されると、受信障害を引き起こすことがあります。

取り扱い説明書に従って正しい取り扱いをして下さい。VCCI-B

Denan Power Cord Statement

Danger:
Please be careful of the following while installing the equipment:

• Please only use the connecting cables, power cord, and AC adapters shipped with the equipment or specified by Avaya to be used with the equipment. If you use any other equipment, it may cause failures, malfunctioning, or fire.

• Power cords shipped with this equipment must not be used with any other equipment. In case the above guidelines are not followed, it may lead to death or severe injury.
General Safety Warning

- Use only the Avaya approved Limited Power Source power supplies specified for this product.
- Ensure that you:
  - Do not operate the device near water.
  - Do not use the device during a lightning storm.
  - Do not report a gas leak while in the vicinity of the leak.
  - For Accessory Power Supply in Avaya J100 Series IP Phones—Use Only Limited Power Supply Phihong Technology Co. Ltd. Model: PSAC12R-050, Output: 5VDC, 2.4A.

Chapter 1: Introduction

Purpose

This document describes the features of the Avaya J169/J179 IP Phone and also provides instructions on how to use this phone.

This document is for end users.
Chapter 2: Phone overview - Avaya J169/J179 IP Phone

Avaya J169/J179 IP Phone is a phone for business communications.

The phone supports line 96 buttons. The primary display of the phone provides 96 buttons that you can access by scrolling or paging using the Navigation Cluster. Optionally, the phone supports up to three button modules, and each button module displays 24 line buttons out of the 96 buttons.

▲ Note:

Avaya J169/J179 IP Phone supports either JBM24 Button Module or Avaya J100 Expansion Module (JEM24).

Avaya J169 IP Phone has a grayscale display, and Avaya J179 IP Phone has a color display.

Physical specifications

• Eight buttons with red and green dual LEDs
• 320x240 pixel display
• Dual-position stand, optional wall mount stand
• Gigabit Ethernet (10/100/1000 Mbps) line interface
• Second Gigabit Ethernet (10/100/1000 Mbps) interface
• PoE Class 1, supports 802.3az, optional AC to 5V adapter
• Four soft keys
• Hard buttons for phone:
  - Messages
  - Contacts
  - Recents
  - Navigation cluster
  - Headset
  - Speaker
  - Volume
  - Mute
  - Main menu

---

**Avaya J100 phone display modes**

The Avaya J100 Series IP Phones have three types of phone screen width options:

- **Full:** In full-width mode, the phone screen shows in full line with the current call. The feature screen also displays only one feature per line. Use the corresponding line key to select.
- **Half:** In half-width mode, the phone screen and the feature screen appears in two columns. Use the adjacent left or right line key to select the call or feature.
- **Feature Half:** Feature half is a combination of full and half-width modes. The phone screen appears in full-width mode, and the feature screen appears in half-width mode with two columns. Use the left or right line key to select.
Half and Feature Half mode works only when the Text Size is set to Normal. Users cannot see the Phone Screen Width option when the text size is set to Large.

Chapter 3: Getting Started

Logging in to your phone

About this task
Perform this task to log in to your phone. Log in from the initial screen when it prompts you for your extension.

The phone stops at the discovery mode in the following conditions:

• The login credentials are incorrect.

• The phone is logged in but one of the gatekeepers is not reachable because of an upgrade or a network outage. In the discovery mode, press Reset. The phone deletes the credentials from the memory, reboots, and displays the Login page.

If the administrator has enabled the offline Call Log feature on the deskphone, the deskphone downloads the call log database when you log in. The offline call log database stores the calls that landed on the deskphone while you were not logged in. These calls are added to the call history as missed calls.

Procedure

1. Press Login.

2. Enter your extension.

3. Press Enter or OK or #.

4. Enter your password. Enter the password that the administrator assigned to you.

5. If your administrator configured the system to allow visiting users, the deskphone prompts for the Login mode. Use the right or left navigation arrow to indicate whether you are a visiting user of this deskphone (Visiting User) or not (Default).

6. Press Enter or OK or #.

Logging out of your phone

About this task
If the administrator has enabled the offline call-log feature on the phone, the phone downloads the call log database when you log in. The offline call-log database stores incoming calls when you were offline. These calls are added to the call history as missed calls.
Procedure

1. Press **Main menu**.
2. Press **Log Out** to choose Log Out.
3. Press **Log Out** or **OK**.

   If you logged into the phone as a guest user, the phone restores the original settings on logout.

---

Logging in as a guest user

About this task

Use this procedure to log in to another phone as a guest and use the features and functionality available on your phone.

⚠️ **Note:**

The guest user login option is available on your phone only if the administrator has configured this feature. Guest user login does not use the Contacts list available on the phone. The previous Contacts list is cleared, and the phone displays only the contacts of the guest user.

Procedure

1. Press **Home**
2. Press **Main menu**.
3. Select **Guest Login**.
4. Enter your extension number.
5. Press **Enter**.
6. Enter your password.
7. Press **Enter**.
8. Scroll left or right to select the duration from 1 to 12 hours for using this phone.

   You can log out at any time despite the duration that you select.
9. Press **Enter**.
Chapter 4: Navigation

Cursor navigation

You can use the navigation cluster for cursor movement or selection of options on the Phone screen or in other menus. The navigation cluster has the following keys on the phone:

• Left Arrow
• Right Arrow
• Up Arrow
• Down Arrow
• OK

Navigation cluster

The effect of pressing a navigation key depends on the current application and context.

<table>
<thead>
<tr>
<th>Key name</th>
<th>Description</th>
</tr>
</thead>
</table>
| Left Arrow and Right Arrow | Use these keys in:  
• Text input fields to move the cursor position.  
• Selection fields to toggle field values and select options in lists and menus.  
• Half-width displays to move the selection left or right.  
• Scrolling between pages when navigating the phone screen, provided your administrator switches on the page scrolling mode.  
The directional keys are context-sensitive. |
| Up Arrow and Down Arrow | Use these keys to  
• Scroll vertically in lists, menus, and pop-up windows.  
• Move the selection up and down the same column.                                                                                          |
### Key name

<table>
<thead>
<tr>
<th>Key name</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>OK</strong>, center button of the navigation cluster.</td>
<td>Unless otherwise specified, use this key for the first or left-most soft key action. If there are two or more pages of soft keys, the <strong>OK</strong> key is active only when the phone screen displays the first page of soft keys.</td>
</tr>
</tbody>
</table>

### Line keys

The line keys are context-sensitive. When you press a line key:

- In full-width lists, the user interface selects the corresponding line or the object.
- In half-width lists, the interface selects the list item adjacent to the key.
- In page scroll mode, scroll on to the next or previous page. The selected item remains highlighted.

### Input line

The following actions take place when you press the line key against the input lines.

- Selects the corresponding line for the line which accepts user input.
- Displays the cursor after the last character of the existing content if the line is an input line. If an input line is selected, the interface performs no action even if the cursor is in the middle of the line.
- Performs the action of the first soft key for the line which does not accept user input even if the line is already selected.

For example, when you press a line key in Contacts, the interface initiates a call to the contact because the first soft key represents the **Call** key.

### Navigation tips

When navigating through the options and features on your deskphone display, use the navigation arrow buttons on your phone to select feature or options.

The deskphone displays navigation icons (,) on the phone display to indicate that you can scroll to more options or information.

### Main menu

The following table lists the Main menu icons used in:
### General icons

The following table lists the icons of Avaya J169/J179 IP Phone.

The icons are similar on both the phones, but Avaya J169 IP Phone displays the icons in gray scale and Avaya J179 IP Phone in color.

# Accessing the Features screen

## About this task

Use this task to gain access to the Features screen.

For models with LEDs, the LED next to the feature name indicates if the feature is currently on or off. If the light is on, the feature is on.

## Procedure

On the Phone screen, use the right navigation button to gain access to the Features screen.

To return to the main Phone screen, press Phone or scroll to the left.
Chapter 5: Call operations

Answering a call

Procedure

Answer an incoming call in one of the following ways:

• If you are not on another call, lift the handset, or press Speaker, OK, or Answer to answer the call using the speakerphone, or press Headset to answer using the headset, or you can press the corresponding line key (LED) to answer the call.

• If you are on a call, and the phone displays the incoming call, from the Phone screen scroll to the line with the incoming call and press Ans Hold or press the corresponding line key (LED) to automatically put the first call on hold when you answer the new call. Also, you can press Ans Drop to automatically drop the first call when you answer the new call.

• To quickly move to the top of your call appearance list to answer an incoming call on your primary line, from the Phone screen press the Phone button. You can then press the line for the incoming call or scroll to it.

• To automatically display the Phone screen when you receive an incoming call, set the Phone Screen on Ringing option to Yes.

Related links

Ignoring a call on page 23

Ignoring a call

About this task

You can ignore the incoming call when you are already on a call or do not want to answer a call. When you ignore a call, only the ring alert on your phone stops, to answer this call within its ring time, use the Up and Down arrow keys to select the call and answer it.

Before you begin

Ensure that you are on the Phone screen.

Procedure

1. (Optional) If you are not on the Phone screen, press the Phone.

   On the Phone screen, the Answer and the Ignore soft keys are displayed.

2. On the incoming call screen, press the Ignore soft key.

   The phone turns off the audio and visual alert.
Making calls

Making a call

Procedure
1. Lift the handset, or press Speaker or Headset (if applicable) or a line button for an available line.
2. Dial the number to call.
   If you are on a mute call, to select an available call line appearance, you can use Up or Down arrows.

Making an emergency call

About this task
If your administrator configured emergency calling for your phone, the Phone screen displays the Emerg softkey to dial a preset emergency services number.

⚠️ Note:
You can make an emergency call when your phone is logged out only if your administrator configured this feature for you. You can also make an emergency call when you lock your phone.

Procedure
1. On the Phone screen, press Emerg.
2. To end the emergency call, press Drop.

Calling a person from the Contacts list

Procedure
1. Press Contacts.
2. Select the person or primary number that you want to call.
3. (Optional) To call a non-primary number, select the person, press Details, then select the desired number.
4. Find the contact that you want to call by typing the name of the person as listed.
For example, if you added John Smith to your Contacts list as “Smith, John”, start typing the last name rather than his first name. Each time you press the dialpad, the list display shifts to match your input. You can also scroll up or down to locate the contact.

5. Press Call.

**Calling a person from the call history**

**Procedure**

1. Press Recents.
2. Scroll to the left or right to view the list of all calls, or separate lists of missed, answered or outgoing calls.
3. Scroll up or down to select the person or number you want to call.
4. Select the person or number you want to call.
5. Press the Call softkey or the OK button or press the corresponding line key.

**Making a call using edit dialing**

**Before you begin**
Ensure that the Edit Dialing feature is enabled on your phone.

**Procedure**

1. On the Phone screen, enter the number you want to call.
2. To edit the number, press Bksp to erase one character at a time.
3. To remove the entire number, press Clear
4. Press Call.

**Calling a person from the directory**

**Procedure**

1. From the Phone screen, scroll right to access the Features menu, select Directory, and press Select or OK.
2. Use the dialpad keys to start typing the last name of the person you want to call.
   Press each dialpad key one time for each corresponding letter. For example, for "Hill", press 4,4,5,5.
3. Select Next to view the names alphabetically in the directory.
4. Press OK or enter the next letter.
5. Select Make Call when you see the name to which you want to make a call to.
6. Press OK to dial the call.
Redialing a number

Procedure

1. From the Phone screen, press Redial.
   The phone redials the last number or a list of the most recent numbers that you have dialed appears from which you can select a number to redial.

2. If you are working with a redial list, scroll to the number to call and press Call or OK or press the corresponding line key (LED).
   Your system administrator can disable Redial functionality.

Clearing a number

Procedure

Press Clear to erase all dialed digits and enter a new number.

Note:
You can clear a number using the backspace button if you have enable the Edit Dialing feature on your deskphone.

Making a call using a Click to dial link

About this task
You can use the Click to Dial feature to make a call from a WML browser or any other screen that provides a dialing link. Usually, a handset icon indicates a line with this type of link.

Procedure

1. Select the line with the link for the person or number you want to call.

2. Press the line button corresponding to the line with the link or press OK.

Result
The phone starts a call to the person or number associated with the click to dial link.

Transferring a call

Procedure

1. From the Phone screen, if the call to be transferred is already not highlighted, press and select the call appearance on which the call appears.

2. Press Transfer.

3. Dial the number if you know the number or call the person from the contacts list or from the history list.

4. If your administrator configured unattended transfers for your deskphone, you can hang up without announcing the call.
Muting a call

About this task
While on a call, you can mute the microphone of your phone so that the other party cannot hear you.

Before you begin
You need to contact your phone administrator to configure this feature.

Procedure
1. Press Mute during a call so that the other person on the call cannot hear you.
2. Press Mute again to unmute the call.

Note:
If a call is on mute and you switch between the handset, headset, or speakerphone, the mute is turned off.
The Mute button light is on when you mute the call, and the top line displays the Mute icon.

Putting a call on hold

Procedure
1. Press Phone to view the main Phone screen, if necessary.
2. Select the active line you want to put on hold.
3. Press Hold.

Note:
The phone might display a hold timer when you put a call on hold.
4. Press Resume, OK button, or the line button of the held call to retrieve the call.

Contacts

Using the contacts feature
You can save up to 250 names and up to 3 telephone numbers for each name.

Note:
When you press the Contacts button you might not see all of the functions that are described in this chapter. The functions are not available because your administrator has disabled changes to Contacts.
Adding a new contact

About this task
You can add up to three numbers to a contact.

Procedure

1. Do one of the following:
   • If this is your first Contacts list entry, press Contacts > New.
   • If you already have entries in your Contacts list, press Contacts > More > New.

2. In the Name field, enter the name using the dial pad.
   • Press the number key that corresponds to the letter or number you want to enter until the letter or number is displayed.
   • If the characters are on the same key, pause before entering the next character.
   • To enter a space, press 0.
   • Enter remaining letters or numbers.
   • To delete the last character, press the Bksp softkey.

3. In the Number field, enter the extension number.
   The contact number can include a-z, A-Z, 0-9, and the following special symbols: comma (,), space, dash (-), dot (.), + , *, $, &, !, ~, ?, +, =, |. A comma (,) inserts a pause during dialing.

4. Press More > Primary if applicable.
   The primary number is the one that will always display without having to go into contact details.

   Note:
   When adding a contact number, you must use your enterprise phone number as the Primary number as this number is utilized for presence indication.

5. In the Type field, choose the type of number entered (General, Work, Mobile, Home).

6. If you have another number of this contact, scroll down and repeat steps 3 to 4.

7. If you have another number of this contact, scroll down and repeat steps 5 to 4. You can add up to two additional numbers to one contact entry, but you can designate only one number as primary.

8. Press Save.

Deleting a contact

Before you begin
Ensure that there is at least one contact in the Contacts list.
Procedure
1. Press Contacts.
2. Select the contact you want to delete.
3. Press Details > More > Delete.
4. Press one of the following:
   - Delete: To delete the contact.
   - Cancel: To cancel the action.

Editing a contact

Procedure
1. Press Contacts.
2. Search for and select the contact you want to edit.
3. Press More > Edit or Details > Edit.
4. Choose the field you want to edit.
5. Use the dial pad and softkeys to change the contact information.
6. Press Save.

Viewing the contact details

About this task
Use this procedure to view the details of a contact. You can call, edit, or delete a contact from the Details window.

Before you begin
You must have at least one contact in the Contacts list.

Procedure
1. Press Contacts.
2. Select the contact that you want to view.
3. Press Details to see the information available for that contact.
   Selecting Details is the only way to dial a second or third number for a contact.
4. Press the appropriate softkey to call or edit this contact, delete this contact, or return to the Contacts screen.

Searching for a contact

Procedure
1. Press Contacts.
2. Using the dial pad, start typing the name which you want to search.

Next steps
Press Call to call the person or press More > Edit to edit contact information.

---

### Call History

#### Viewing the call history

**Procedure**

1. Press Recents.
   - You can go to the top of the list by pressing Recents again.
2. Scroll to the right or left to view separate lists of answered, outgoing, or missed calls.

   ✪ **Note:**
   - Depending on how your administrator configured the system, a Missed Call counter might appear next to a missed call showing the number of missed calls you have from that person.
3. Scroll up or down to view the entries on the list.

#### Viewing call history details

**Procedure**

1. Press Recents.
2. Select the number you want to view.
3. Press Details.
   - If you are logging bridged calls as well as your own, bridged call details are identified by either CALL FOR: (calls made to the bridged line) or CALLED FROM: (calls made from the bridged line) preceding the applicable number.
4. To return to the list view, press Back.

#### Adding an entry from the call history to your contacts list

**Procedure**

1. Press Recents.
2. Select the number you want to add to your Contacts list.
3. Press +Contact.
4. If necessary, edit the name and telephone number.
5. Press Save.

Removing an entry from call history

Procedure
1. Press Recents.
2. Select the number you want to delete.
3. Press More, and then press Delete.
4. Press Delete to confirm the deletion.

Clearing all call history entries

About this task
Clearing all entries from the call history deletes all the entries for the specific list you are viewing. For example, if you are viewing the Outgoing calls list, the phone deletes only the entries for outgoing calls. However, if you are viewing the All Calls list, pressing Clear All deletes all calls.

Procedure
1. Press Recents.
2. Press Clear All.
3. Press Clear All or OK to confirm.

Turning off call history

Use this task to turn History on or off. If you have bridged call appearances on your phone, you can choose whether or not to include calls to your bridged lines in your call history log.

Procedure
1. Press Home.
2. Press Main Menu.
3. Select Options & Settings > Application Settings.
4. To select the type of call history logging that you want to turn off, perform one of the following actions:
   • To turn off logging your calls, select History.
   • To turn off logging the bridged lines, select Log Bridged Calls.
5. Press Change or OK or the corresponding line key to turn call history logging on or off.
6. Press Save.
Conferences

Using the conference feature

You can use conference calls to speak with people from different locations on the same call. Additional conferencing options might be available through Expanded Meet-Me Conferencing. Contact your administrator for more information about this feature.

Adding a person to an active call

About this task

Use this procedure to add participants to an active call to set up a conference call.

Before you begin

Start a call.

Procedure

1. During a call, on the Phone screen, press More > Conf.
   The phone puts the existing call on hold.
2. To make a call to a participant, do one of the following:
   • Dial the phone number by using the dial pad.
   • Call the person from the Contacts list or the Recents list.
   • Redial the last dialed number by using the Redial softkey.
3. When the third participant answers the call, press the Join softkey.
4. To add another person, press Add and repeat Step 2 and 3.

Adding a person on hold to a conference call

Procedure

1. During an active call, press Hold.
2. When the second person answers the call, press the Conf softkey and select the line key of the person on hold.
   The person on hold is added to the conference call.

Dropping a person from a conference call

Procedure

1. From the Phone screen, select your active conference call.
2. Press Details.
   Ensure that your administrator has configured the Details softkey.
3. Select the person you want to drop.
4. Press Drop soft key.

Dropping or Disconnecting the last participant from a conference call

About this task
Depending on the configuration made by your administrator, you can disconnect the last participant who joined the conference call. After you disconnect the last participant, you cannot disconnect other participants. You can disconnect a participant again after you add another participant to the conference call.

Before you begin
Ensure that the administrator enabled the feature.

Procedure
1. From the phone screen, select your active conference call.
   You will see the More soft key.
2. Press More > Drop when the conference is active.

Result
The participant who was added last gets disconnected from the conference.

Related links
Making Conference Calls (video)

Putting a conference call on hold and resuming a call

About this task
Use this procedure to put a conference participant on hold, while other participants continue the conference call.

Procedure
1. Press Hold soft key during a conference call.
2. Do one of the following:
   • Press Resume.
   • Select the call appearance to resume the conference call.

Muting a person on a conference call
You may be able to silence a person on a conference call using the Silence softkey. The individual muting feature is not available on all systems. If you do not see Silence softkey when you choose a person, you cannot mute that person.
Procedure

1. From active conference screen, select the line of the person you want to mute during a conference call.
2. Press Details.
   Ensure that your administrator has configured the Details softkey.
3. Select the line of person you want to mute, press Silence soft key.
4. Press Silence again to take the person off mute.

Using Voicemail

Receiving your messages

About this task
The Message button and the Message Wait indicator at the upper right corner glows red to indicate that you have a message.

Procedure
Press the Message button to access your voice messages.

Listening to your voicemail

About this task
Use this procedure to listen to your voicemail on your phone.

For more details on using your voicemail services see, Avaya OneCloud-ReadyNow Messaging Service User Guide.

Before you begin
- Ensure that the system administrator configures the voicemail for your extension.
- Obtain the user ID and password of your voicemail from your system administrator.

Procedure
1. To log in to your voicemail, press the Message button.
2. Follow the voice prompts to playback your voice messages.
Chapter 6: Advance features

Call forwarding
You can forward your incoming calls to another number or to voice mail. The forwarding features available on your phone depend on the options your administrator has set. For more information about the options available on your extension, contact your administrator.

Related links
- Activating call forwarding on page 35
- Activating Send All Calls on page 35

Activating call forwarding
Procedure
1. Gain access to the Features screen.
2. Scroll to choose Call Forward.
3. Press Select or the corresponding line button.
4. Enter the destination number to which you want to forward your calls.
5. Press #.

Note:
You can view the call originator when the call forwarding chain has two or more participants. This feature works if your administrator has configured the related parameter.

Related links
- Call forwarding on page 35

Activating Send All Calls
About this task
When Send All Calls (SAC) feature is on, your incoming calls go directly to a predefined coverage number, typically your voice mail. Incoming calls ring once at your extension and then go directly to a number which is set by your system administrator. If the SAC feature is administered on your phone, a Send All softkey appears on the Phone screen for idle calls.

Pressing Send All turns Send All Calls on. If it is already on, pressing Send All turns it off.
You can also turn **Send All Calls** on or off by using the phone Features list.

**Note:**
Do not enable the SAC feature in case you selected the cover all option for the coverage path. Enabling both features at the same time can cause duplicate entries in the call log.

**Procedure**
1. Navigate to the Features screen.
2. Scroll to choose **Do not disturb**.

**Note:**
If you want the feature label to read as **Send all calls**, contact your administrator to relabel the feature name.
3. Press **Select** or **OK** or the corresponding line key to activate the feature.

Related links
- Call forwarding on page 35

---

**Activating EC500 for simultaneous ringing on multiple phones**

**About this task**
With the EC500 feature, you can program calls in the way that your desk phone and your cell phone ring simultaneously when there is an incoming call. Using this feature, you can answer office calls while you are away from your desk. The system administrator has to add your cell phone number and program the desk phone.

**Procedure**
1. From the Phone screen, go to the **Features** screen.
2. Scroll to **EC500**, and press **Select**.

---

**Using bridged call appearances**

In addition to your own call appearances, your phone might show one or more bridged call appearances on the display screen. A bridged call appearance is of another user and enables you to determine if that call appearance is in use, answer calls on that appearance, or join a call in progress on that call appearance from your phone. You can also make outgoing calls on a bridged call appearance when the bridged call appearance is not in use.
Answering a call on a bridged line

About this task
Answering a call on a bridged line is the same as answering the call on a primary line. For multiple call appearance alerting, the phone highlights the call appearance with the most recent incoming call. If the ringing line is selected, you can answer by picking up the handset or by pressing Speaker or Headset or Answer or OK button.

Procedure
1. Select the bridged call that you want to answer.
   The ringing line is selected automatically. If you are on another call when a call comes in to a bridged line, you have to select the ringing line.
2. Press Answer.

Making an outgoing call on a bridged line

About this task
When you make a call on a bridged line, you are using another phone user's line. The caller ID associated with the call you are making might show the call as coming from you or coming from the person whose line you are using.

Before you begin
Ensure that the feature is activated by the administrator.

Procedure
1. Select the bridged line you want to use.
2. Press OK or select the corresponding call appearance to get a dial tone.
3. Dial the phone number, or call the person from the Contacts list, or call the person from the Recents list or select the Redial softkey.

Joining a call on a bridged line

Before you begin
Ensure that the feature is activated by the administrator.

Procedure
1. Select the bridged call in progress that you want to join.
2. Press the Bridge softkey or OK or press the corresponding line key.

Independent alerting for each bridged call appearance
You can configure a unique alerting option for each bridged call appearance on your phone if the administrator has enabled the Independent alerting feature for your extension.

The following four options are available:
- On: The phone plays a ringtone on an incoming call on the bridged appearance.
• **Off**: The phone does not play an alert ringtone on an incoming call on the bridged appearance.

• **Delayed**: The phone plays an alerting melody after a delay if you do not answer a call on the bridged appearance. Your administrator can configure the delay.

• **Abbreviated**: The phone plays a single beep to indicate a call on the bridged appearance.

**Note:**

For multiple call appearance alerting, the phone highlights the call appearance with the most recent incoming call.
Chapter 7: Customizing your phone

Options & Settings

The Options & Settings menu contains the following submenus:

- Call Settings
- Application Settings
- Screen & Sound Options
- Advanced Options

The Call Settings menu includes choices for automatically displaying the Phone screen when, you get an incoming call, when you place a call, when you answer a call, turning call timers on or off, controlling how Redial works, turning Visual Alerting on or off, and more.

The Application Settings menu includes choices for personalizing button labels, turning call History on or off and including bridged calls in your call History.

Screen & Sound options includes choices for adjusting brightness, ring pattern, large font, full-width/half-width/feature half mode, button clicks, and tones.

The Advanced Options menu includes choices for backing up and restoring your settings, options.

You can also set AGC (Automatic Gain Control) for your headset, handset, and the speaker audio.

Call Settings

Setting Go to Phone Screen on Calling

About this task

You can configure the Go to Phone Screen on Calling option to Yes to automatically display the Phone screen when you make a call.

Procedure

1. Press Main menu > Options & Settings.
2. Press Select or OK.
3. Select Call Settings.
4. Press Select or OK.
5. Select **Phone Screen on Calling**.
6. Select **Go to Phone Screen on Calling**.
7. Press **Change** or **OK** to set the option to **Yes** or **No**, depending on the current setting.
8. Press **Save**.

### Setting contact names to display during calls

You can set your deskphone to display the contact's name rather than the calling party name for an incoming or answered call, a transferred call, or conference call when a calling or called party number matches a number on your Contacts list.

#### Procedure
1. Press **Home**.
2. Press **Main menu**.
3. Select **Options & Settings** or **Phone Settings**.
4. Press **Select** or **OK**.
5. Select **Call Settings**.
6. Press **Select** or **OK**.
7. Select **Pair Contacts to Calls**.
8. Press **Change** or **OK** to change the setting to **On** or **Off**.
9. Press **Save**.

Setting dialing options

About this task

Your phone has the following dialing options:

- You can dial a number by picking up the handset, getting a dial tone, and dialing the required number (off-hook dialing).
- If you set the Edit Dialing feature, you can enter the number or a part of it, edit the entered digits if needed, and press the corresponding softkey to dial.

When on-hook dialing is enabled, Edit Dialing is not available.

Procedure

1. Press Main Menu.
2. Navigate to Options & Settings > Call Settings > Edit dialing.
3. Press Change to select On (Enabled) or Off (Disabled).
4. Press Save.

Setting Headset Signaling

About this task

You can get incoming call alert through your headset and the speaker. This might be convenient if you want to turn the speaker alert off or you have a wireless headset.

Note:
Not all the headsets support audible alerts.

Procedure

1. Press Home.
2. Press Main menu.
3. Navigate to Options and Settings > Call Settings > Headset Signaling.
4. Select from the three settings using the corresponding buttons:
   - None: No ringing tone is sent to the headset. Headset remains on hook till headset switch-hook button is pressed for an incoming call.
   - Switchhook and Alerts: On an incoming call, the phone plays an alert tone in the headset every 5 seconds.
   - Switchhook only: The phone does not send the ringing tone to the headset. The headset switch-hook button is non functional.
5. Press Save.

Application Settings

Activating call log history

You can activate the call log history through the Settings menu so that you can track the calls made to, or from the phone and use the call history to make outgoing calls again.

Procedure
1. Press Home.
2. Press Main menu.
3. Select Options and Settings.
4. Select Application Settings.
5. Select History.
   The phone sets the option to Off by default. Press Change to change the setting to On.
6. Press Save to save the change.

Activating call log for bridged calls

About this task
You can use the call logs to track the calls on the bridged extension. Follow this procedure to activate the call log for bridged calls through the Settings menu.

Procedure
1. Press Home.
2. Press Main menu.
3. Select Options & Settings.
4. Select Application Settings.
5. Navigate to Log Bridged Calls.
   The phones sets the option to No by default. Press Change to change the setting to Yes.
6. Press Save to save the change.

Personalizing labels

About this task
You can change the labels that the phone displays for your extensions, features, and abbreviated dial or speed dial buttons. For example, you can change the label for your extension to My Line. If
you have a button module attached to your phone, you can change any of those labels. For example, you can change a Help Desk extension to read Help Desk.

**Procedure**

1. Press Main Menu.
2. Select Options & Settings or Phone Settings.
3. Press Select or OK.
4. Select Application Settings.
5. Select Personalize Labels.
6. Press Change or OK.
    - The phone displays the labels which you can edit.
7. Select the label you want to edit.
    - If the label you want to edit is on the Features menu, scroll right to access the Features menu, and select the label you want to edit.
9. Edit the label.
    - Press More then Clear to clear all text fields and start again.
10. Press Save or OK.
11. *(Optional)* To revert to the default button labels, select Main Menu > Options & Settings > Application Settings > Restore Default Button Labels.
    - a. Press Select.
    - b. Press Default.

Options & Settings on page 39

Changing text size

About this task
Use this procedure to change font size of the text in phone display.

⚠ Note:
This feature applies to English language.

Procedure

1. Press Main menu.
2. Scroll to Options & Settings and press Select soft key.
3. Scroll to Screen & Sound Options and press Select soft key.
4. Scroll to Text Size.

⚠ Note:
The Text Size option is available only if the administrator configures the feature through the settings file.

5. Press Change to change the text size.

You can set the text size to:

- Normal
- Large

6. Press Save.

If you set the value of Phone Screen Width to Half or Feature-Half and Text Size to Large, the screen width automatically changes from half to full, to allow the larger text size to display properly. In this case, if you prefer a split screen, you must set the Text Size to Normal.
Related links

Setting the phone screen width

About this task
Use this procedure to set the phone screen size width. The screen display can be set to full, half and feature-half mode.

Procedure
1. Press Main Menu.
2. Scroll to Option & Settings and press Select.
3. Scroll to Screen & Sound Options and press Select.
4. Scroll to Phone screen width.
5. Press Change to select one of the following options:
   - Full: Each call appearance or feature occupies the entire width of a line on the phone screen.
   - Half: Each call appearance or feature occupies half the width of a line, effectively splitting the screen in two halves.
   - Feature Half: This display option is a combination of full-width and half-width modes. The call appearance screen appears in full-width mode and the feature screen appears in half-width mode.
6. Press Save.

Changing the ring pattern

About this task
There are two ring tone categories available:
- Classic
- Rich

Each category contains eight distinctive ring tones. The ring tone currently selected is displayed on the status line with a check mark next to the ring tone.

Procedure
1. Press Main menu > Options & Settings > Screen & Sound Options.
2. Press Select or OK.
4. Use the Rich/Classic softkey to toggle between the two sets of categories.
5. Scroll down/up through the patterns and select one.
   The phone plays the ring tones once through the speaker as you scroll through the list.
6. Press **Save** to save your selection.
   The phone takes you to the **Screen & Sound Options** menu.

### Advanced options

**Backing up and restoring your data files**

In addition to the automatic backups of telephone information whenever you change or update phone options and settings, and depending on how your system is administered, you can initiate a manual backup of your data files. Data files are personal settings like contacts, favorites, personalized labels for your phone and any applicable button modules, call history, ring tones, and any other phone options and settings you may have set using the **Main Menu**. Likewise, if administered, you can restore your data files to the previous settings using the manual restore option. Performing a manual backup or a manual restore of backed up files is not usually necessary, but your system administrator may ask you to do this in the event of system problems.

**Procedure**

1. Press **Main menu > Options & Settings**.
2. Press **Select** or **OK**.
3. Select **Advanced Options**.

4. Press **Select** or **OK**.

5. Select **Backup/Restore**.

6. Ensure that you select the **Manual Backup** line, then press **Backup** to start the data file backup.

   The top line displays messages to inform you the backup is in progress and when the backup is complete.

   When the backup is in progress, it shows message *Backup in progress*. When the backup is complete, it shows message *Backup successful* or *Backup failed* depending on the **bruri** parameter values in the settings file.

7. To restore your data from a backup file, be sure that you select the **Manual Restore** line, then press **Restore**.

   The top line displays messages to inform you that data restoration from the backup file is in progress and when the restoration finishes. Your options and settings now reflect their previous values.

   When the restore is in progress, the phone displays *Retrieval in progress*. When the restore is complete, the phone displays either *Retrieval successful* or *Retrieval failed*.

**Selecting handset audio equalization**
About this task

For most people, this option is irrelevant. For certain people with hearing difficulties, however, this option can change the audio characteristics of the phone and make it easier to hear the far end.

Procedure

1. Press Main menu > Options & Settings.
2. Press Ok.
3. Choose Advanced Options.
4. Select Handset Equalization.
5. Press Change.
6. Select the setting which you want to change by pressing the button against the setting.
   - Default— Setting delivers standard audio performance unless otherwise modified by your administrator.
   - Audio Opt.— Delivers standard audio performance, regardless of what your administrator has chosen.
   - HAC Opt.— Setting delivers “Hearing Aid Compatibility” performance.
   - Amplified— Setting allows users to reset the volume level to nominal between calls.
7. Press Save.

Acoustic Protection

Avaya J100 Series IP Phones have the acoustic exposure protection, to protect the user’s ears from the acoustic shocks. This feature reduces the loud volume of the conversations on the phone call to permissible acoustic limit. The user can set the permissible acoustic limit to dynamic or predefined static values. In dynamic setting, the feature activates itself and gradually reduces the loud volume of the phone conversations to prevent from reaching the damaging decibel levels.

Acoustic exposure protection feature satisfies OSHA, ETSI and employee health safety requirements.

⚠️ Important:

Only L100 Series Headsets with RJ9 connector supports acoustic exposure protection.

Configuring acoustic exposure protection

About this task

Use this procedure to configure the acoustic exposure protection for your headset.
Before you begin

Ensure to use L100 Series Headsets.

Procedure

1. Press **Main Menu**.
2. Scroll to **Options & Settings**, and press **Select**.
3. Scroll to **Advanced Options**, and press **Select**.
4. Scroll to **Acoustic Protection...**, and press **Select**.
5. Choose one of the following and press **Select**:
   - **Default**: Sets the acoustic protection values to one of the following options that your administrator sets:
     - Dynamic
     - 8 hours
     - 4 hours
     - Off
   
   This configured value is the default setting for acoustic protection that your administrator sets.
   - **Off**: Sets the acoustic protection off.
   - **Dynamic**: Sets the acoustic feature to Dynamic, which activates itself and gradually reduces the loud volume of the phone conversations to prevent from reaching the damaging decibel levels.
   - **8 hours**: Sets the acoustic protection for 8 hours.
   - **4 hours**: Sets the acoustic protection for 4 hours.

---

**Administrative messages**

Your administrator can send or push important messages such as notification of an early office shut down because of bad weather. The administrator can also send information about an imminent service interruption to your deskphone.

These types of messages can take any of the following forms:

- A text message streaming across the top display line, that also accompanies an audible alert.
- An audible alert broadcast through the Speaker or the headset if that device is active.
- An interrupt screen notifying you that you are receiving an audio alert.
While receiving an audible alert, you can change between the speaker, handset, and headset, can stop the transmission of pushed audio content by going on-hook, and can adjust the volume, as you normally do during a call.

Browser

Your phone includes WML Web browser capability to use additional applications such as LDAP. The applications available through the browser vary depending on how your system administrator has configured your phone.

Gain access to the browser through **Main Menu**. If you do not see the **Browser** option on Main Menu, Web applications must be available for your phone.
Chapter 8: Troubleshooting

Limited access during failover

One or more telephone system servers provide your phone with its connectivity, features, and functionality. If a disconnect or switch from one server to another occurs, your phone goes into failover mode to keep it operating while alternate server resources are established. Depending on the server your phone is on, an icon may appear on the Top display line (status bar) notifies you that failover is in effect.

Failover has different stages. For example, while your phone transitions to a new server it is in limbo state and it has limited functionality. When the alternate server is active, your phone assumes the functionality available on that server, which might not be the same as your original server. When the original server is restored, your phone transitions back, and functionality might again be limited during the transition. When your phone is back on the original server, normal functionality is restored. Failover and failback are automatic; you have no control over failure mode.

Keep in mind that during failover certain features may not be available and telephone functionality might be limited. Check the soft keys at the bottom of the display to determine the actions you can take during failover. You can also press the Phone button to display the for possible actions.

⚠ Important:

Do not log your telephone off during failover or until normal service is restored on your original telephone server. Logging off during failover, during transition to or from an alternate server, or while your phone is active on an alternate server may cause your phone to become inoperable.

The following conditions apply when your telephone is in Failover mode:

- If you are on a call when failover occurs, the call remains active. You cannot initiate new calls while your phone transitions to the alternate server.
- The phone does not display certain soft keys and their related functions may be unavailable until transition to the alternate server is complete.
- Call connection may take longer than usual.
- During the transition to a new server, any active conference calls, call transfers, and held calls may be dropped. Incoming calls might not reach you and can go to voice mail.
- Emergency calls might or might not work, depending on the stage of failover and the functionality available on the alternate server.
• You can press the Phone button to access browser web links or pages during failover (if normally available). However, any “click to dial” links will not work until the phone transitions to the alternate server.

• The Message Waiting Indicator is cleared, but voice mail might still be available if the voice mail server to which calls are being sent is not in failover.

Transitions back to the normal server will restore all original functionality.

Finding documents on the Avaya Support website

Procedure

1. Go to [https://support.avaya.com](https://support.avaya.com).
2. At the top of the screen, type your username and password and click Login.
3. Click Support by Product > Documents.
4. In Enter your Product Here, type the product name and then select the product from the list.
5. In Choose Release, select the appropriate release number.
   The Choose Release field is not available if there is only one release for the product.
6. In the Content Type filter, click a document type, or click Select All to see a list of all available documents.
   For example, for user guides, click User Guides in the Content Type filter. The list only displays the documents for the selected category.
7. Click Enter.
Viewing Avaya Mentor videos

Avaya Mentor videos provide technical content on how to install, configure, and troubleshoot Avaya products.

About this task

Videos are available on the Avaya Support website, listed under the video document type, and on the Avaya-run channel on YouTube.

- To find videos on the Avaya Support website, go to https://support.avaya.com/ and do one of the following:
  - In Search, type Avaya Mentor Videos, click Clear All and select Video in the Content Type.
  - In Search, type the product name. On the Search Results page, click Clear All and select Video in the Content Type.
    The Video content type is displayed only when videos are available for that product.

In the right pane, the page displays a list of available videos.

- To find the Avaya Mentor videos on YouTube, go to www.youtube.com/AvayaMentor and do one of the following:
  - Enter a key word or key words in the Search Channel to search for a specific product or topic.
  - Scroll down Playlists, and click a topic name to see the list of videos available for the topic. For example, Contact Centers.

⚠️ Note:

Videos are not available for all products.

Support

Go to the Avaya Support website at https://support.avaya.com for the most up-to-date documentation, product notices, and knowledge articles. You can also search for release notes, downloads, and resolutions to issues. Use the online service request system to create a service request. Chat with live agents to get answers to questions, or request an agent to connect you to a support team if an issue requires additional expertise.
