Original publication date: 06-Jan-22. This is issue #01, published date 06-Jan-22. Severity/risk level High Urgency Immediately

Name of problem PSN005988u – Avaya Messaging Log4j vulnerabilities

Products affected

Avaya Messaging 10.8.x, 11.0 GA or 11.0 SP1

Problem description

Avaya is aware of the recently identified Apache Log4j vulnerabilities ([CVE-2021-44228](#), [CVE-2021-45046](#), [CVE-2021-45105](#), [CVE-2021-44832](#), [CVE-2021-4104](#)) and is conducting impact assessments across its portfolio, identifying opportunities for temporary mitigations, if possible, and developing remediation plans. Reference the *Avaya Product Security - Apache Log4j Vulnerability - Impact for Avaya products* on support.avaya.com for updates.

The internal analysis has determined that Avaya Messaging 10.8.x, 11.0 GA or 11.0 SP1 releases are not vulnerable to the associated vulnerabilities CVE-2021-44228, CVE-2021-45046, CVE-2021-45105, CVE-2021-44832, CVE-2021-4104 as soon as it is not using log4j libraries. However, our solution might come with 3-rd party software from Nuance which is using Log4j 1.x and can be vulnerable to the associated vulnerability CVE-2021-4104 (Log4j 1.x JMSAppender).

Please only follow documented procedures described in this PSN to resolve this issue.

This PSN will be updated as more information is available.

Ensure that you are signed up for Avaya E-notifications so that you will be notified when new issues of this PSN are posted.

Resolution

Log4j file under the “JMXWatcher” folder is expected to be removed at the next release opportunity of Nuance SpeechSuite 11.0.x

Workaround or alternative remediation

Log4j file under the “JMXWatcher” folder (e.g. “C:\Program Files (x86)\Common Files \Nuance \Common \JMXWatcher \x86 \lib \log4j-1.2.8.jar”) can be removed as it’s not used by the Nuance SW stack.

Remarks

PSN Revision History

Issue 1 – January 06, 2022: Initial publication.

## Patch Notes

The information in this section concerns the patch, if any, recommended in the Resolution above.

Backup before applying the patch
